Model 7325-106 Multi-Party Amplifier Enclosure

General Information

This data sheet applies to the Model 7325-106 Multi-Party Amplifier Enclosure, which is a component of the 700 Series Page/Party® system. This enclosure is configured for multi-party systems and can accommodate conversations on up to five party lines simultaneously.

The Model 7325-106 is constructed of cast aluminum and is extremely weatherproof and corrosion-resistant. It is equipped with terminal strips for connecting system cable, and is supplied with pre-drilled cable openings and dual 1.25-inch conduit hubs located on both the top and bottom. The Page/Party® Series amplifiers mate directly with this enclosure. For continued IP 66 protection, torque setting for securing the amplifier to the enclosure should be 10 to 12 in-lbs. or 1.13 to 1.36 n-m.

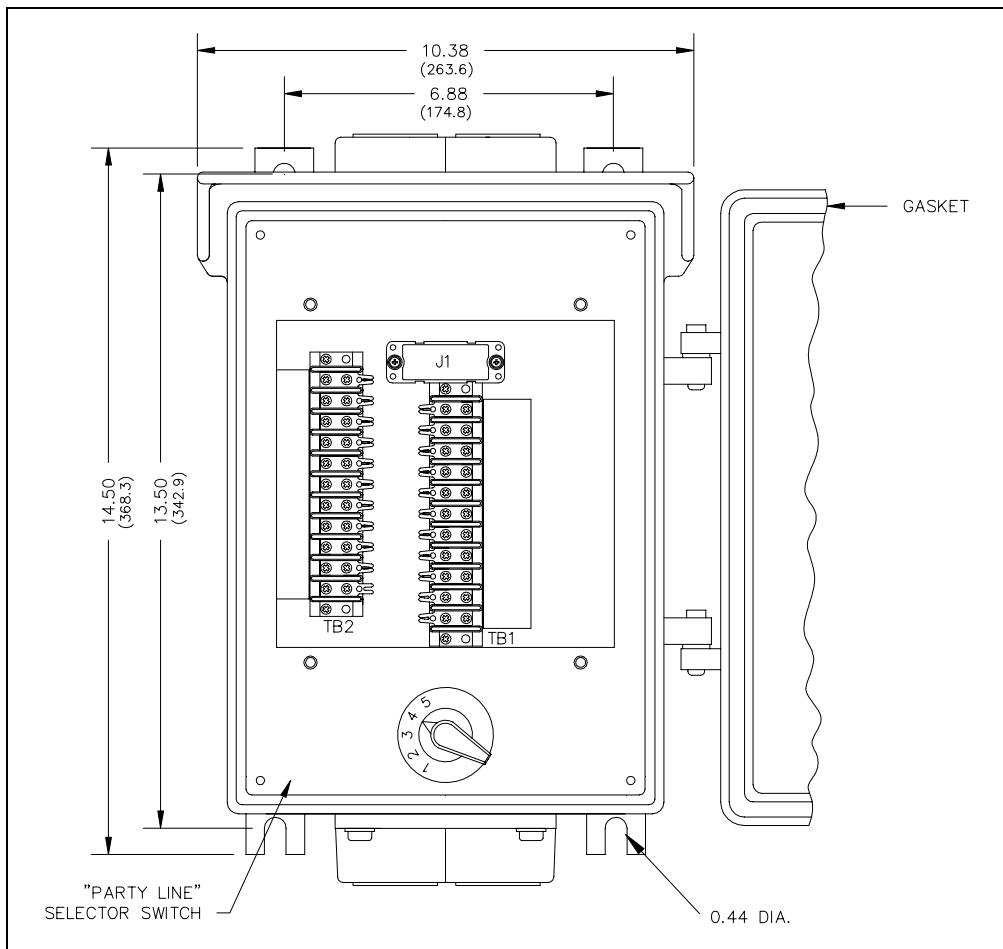

Figure 1. Model 7325-106 Enclosure Mounting Details

Specifications

Construction/finish..... Sand-cast A319 aluminum alloy, cam-style latch, hinged door with gasket; gray enamel paint

Mounting..... Wall, column, or pole (mounting kit required for pole mounting), four 0.44-inch (11.2 mm) mounting holes

Connections Internal screw-type barrier terminal blocks

External controls Rotary selector switch

Dimensions 14.50 H × 10.38 W × 9.6 D inches (368.3 × 263.6 × 244 mm)

Temperature range (operating and storage) -22° F to +158° F (-30° C to +70° C)

Shipping weight 20.4 lbs. (9.3 kg)

Approvals

Model 7325-106 Enclosure..... II 3G EEx nA IIC
 Temp -30 to 70°C
 Location Zone 2
 IP 66 when installed with a Model 701-305, 751-005, 701-905, or 751-905 Amplifier

NRTL listed Suitable for use in hazardous locations Class I, Div. 2, Groups A, B, C, D;
 Class II, Div. 2, Groups F, G;
 Class III, Div. 2
 when used with listed 701-305, 701-905, 751-005 or 751-905 Amplifier
 Enclosure environmental rating: Type 4X and 13
