Telephone Installation Safety Rules

Confidentiality Notice

This manual is provided solely as an operational, installation, and maintenance guide and contains sensitive business and technical information which is confidential and proprietary to GAI-Tronics. GAI-Tronics retains all intellectual property and other rights in or to the information contained herein, and such information may only be used in connection with the operation of your GAI-Tronics product or system. This manual may not be disclosed in any form, in whole or in part, directly or indirectly, to any third party.

Safety Guidelines

When installing any GAI-Tronics' telephone equipment, please adhere to the following guidelines to ensure safety of all personnel:

- **Never** install telephone wiring during a lightning storm.
- **Never** install telephone jacks in wet locations unless the jack is specifically designed for wet locations.
- **Never** touch uninsulated telephone wires or terminals unless the telephone line has been disconnected at the network interface.
- **Use caution** when installing or modifying telephone lines.

If you have any questions, or if you require further assistance, please call 800-492-1212 inside the USA or 610-777-1374 outside the USA for help identifying the Regional Service Center closest to you.
